KUHIO WRITES

(Continued from Page 1.)

view of the fact that cities larger than ours have to work for years to get a hundred thousand dollar building it is discouraging to have our Honolulu people assuming that we can easily get a million, and that it only remains for us to squabble over how that shall be spent. If another commission were sent to Honolulu it would be two years more before we could even ask for an appropriation.

Merchants' Cable.

The cabled resolutions of the Merchants' Association opposing purchase of any building was more to the point, being a definite expression of choice between alternatives, whereas the petition above referred to left the entire matter just where it was, and could only tend to defeat any appropriation at this session. This is not stated as a criticism, but merely to show the misapprehension under which that petition was prepared.

A citizens' petition against the purchase of a building and favoring the erection of a new one, has been received, bearing a long list of signatures from all classes of citizens, including many business men.

All these will be presented with my statement to the Public Buildings Committee.

It is useless to talk about what we would like to have the Federal Government do for us; we must take appropriations as we can get them, and the same as they are given to other cities.

Desha Endorsement.

The Advertiser is again in error in saying that I have endorsed George Desha for the Hilo Postoffice. I have endorsed neither Mr. Desha nor Mr. Pratt.

Before leaving Honolulu I requested Governor Carter to give George Desha a better position in Honolulu; but I do not favor forcing a Honolulu man upon the Hilo people against their wishes. Neither do I believe that my prestige here would be increased if I were to kokua with Governor Carter, when he has gone over the heads of the Honolulu business public, the Republican organization and myself, to secure the nomination of whatever man he may choose to name. And in the case of Hilo, although I am especially anxious to secure a good position for George Desha I will not be party to the plan of forcing him on the Hilo people against their wishes.

Leprosy Bill.

A hearing on the leprosy study bill has been delayed because Chairman Hepburn's committee has been engaged in continuous hearings on railway rate matters. In conversation with the President on Wednesday he warned me that the orders to cut all appropriations would make it almost impossible for us to secure that fund at this session. I am hoping, however, that the bill may be reported by February 1.

Light House Bills.

I have secured the referring of my two bills for new lighthouses at Makapuu Point and Honolulu harbor to the Lighthouse Board, and from the board we have secured a special report ahead of the regular order, so that I may be able to get both those bills reported during the coming week.

Harbor Bill Victory.

During the past week we have pressed the Honolulu harbor matter to the utmost limit in view of the near completion of the diver and harbor bill. On Wednesday I had a very satisfactory talk with the President on this subject and secured from him personal letters to Chairman Burton and to Secretary Taft, urging action for Honolulu harbor. On Friday I saw the Secretary of War, who immediately sent for General Mackenzie and asked him to personally urge the matter on the House Committee chairman.

At the request of Mr. Burton I furnished him with a statement in regard to harbor improvement work begun by the Republic of Hawaii, and that evening my secretary went over the plans in detail with Chairman Burton and the Chief of Engineers. Yesterday the matter was brought up in full committee and a sub-committee appointed to report finally on the matter. Chairman Burton has asked my secretary and myself to appear before them tomorrow morning and it will be decided within 48 hours whether we are to get into the bill or not. If we do, it will be a notable victory for Hawaii, for we will be the single harbor in the United States permitted in the bill without a previous official survey.

Tremendous pressure has been brought to bear by other harbors, whose needs are as great as our own, but they have been invariably rejected where no survey had been previously ordered. And to secure our admission to the bill we have had to gain the consent of members who have equally needy harbors in their own districts rejected in this same bill.

Very truly yours,
J. KALANIANA'OLE,
Delegate to Congress.

House of Representatives, Washington, January 27, 1905.

Editor Evening Bulletin: My last letter told of the fact that request had been made to my secretary and myself to appear before the Rivers and Harbors Committee on Monday morning.

Our hearing before the sub-committee was extended till after the full committee had gathered for executive session, so that we had opportunity to point out on the large map of Honolulu harbor the exact nature of our needs. We made our fight for \$250,000 cash for immediate needs and \$250,000 on continuing contract to complete the deepening and remove Lighthouse Pt. the following year.

Taft Helped.

On Monday afternoon Secretary Taft appeared before the committee as he had promised me he would do and the committee then decided to give us the cash appropriations asked for, but that they would require further surveys before giving the additional sum on continuing contract.

That evening one of the committee-men who had been very friendly to us, told us of the outcome of the executive session. We at once urged upon him the fact that we would again be hampered in our harbor within the two or three years before another rivers and harbors bill will be passed, and we asked him to move reconsideration and if necessary to cut the cash to \$200,000 in order to get \$200,000 more on continuing contract.

This he did for us on Tuesday morning, and it was voted in that form, which gives us \$150,000 more than we would otherwise have gotten. The continuing contract will enable the work to be pushed uninterruptedly, and Honolulu can now see the beginning of a commodious deep draft harbor.

What Others Got.

I did not myself realize the extent of our victory until the full bill was made public yesterday. I then discovered that we are actually getting more for Honolulu harbor in this bill than is given to the harbors of either New York, Boston, Chicago, Cleveland or Oakland, their appropriations being as follows: New York \$350,000, Boston \$100,000, Cleveland \$200,000, Chicago \$200,000, Oakland \$250,000.

A clause will be added in the Honolulu item, providing for any additional survey that may prove necessary for future harbor enlargement, so that we can come in on every rivers and harbors bill in the future until our entire harbor project is completed.

Hilo Survey.

I am also much gratified that the bill carries provision for a survey and estimate for the Hilo breakwater.

I am very anxious that the Rivers and Harbors Committee should be brought to Hawaii for a tour of investigation a year from this summer, so that we can better demonstrate the needs for the Hilo breakwater and the continuation of Honolulu harbor enlargement. It would not be advisable to have them come this summer unless the present bill should by any means be defeated; if it passes there will not be another bill for at least two years and possibly three.

Burton Will Defend.

Owing to the fact that ours was the only unordered project in the bill our item will necessarily receive discussion in the House. But Mr. Burton will personally defend the item, and I shall rally all the friends of Hawaii to its support on the House floor, and I am confident of its retention in the bill.

Unless the entire bill is defeated, on which there is some question raised, we are practically assured of these amounts.

The continued discussion of railroad rates before the House Committee on Interstate Commerce has prevented getting either of my lighthouse bills considered this week. Favorable reports on both of them have been secured already from the Lighthouse Board, and I have also secured special resolutions in their favor from the American Association of Masters and Pilots of Steam Vessels, which is just closing its national convention here.

During the coming week I shall call up my bill for giving American registry to the steam lighter Pioneer, which has already been favorably reported out of committee.

I have again seen Surgeon General Wyman on the leprosy study bill, but neither he nor myself have yet been able to get a date set for a hearing on that measure. Very truly yours,
J. KALANIANA'OLE,
Delegate to Congress.

BASKETBALL.

On Saturday the High School faced the Normals in a game of basketball, the Punahou meeting the Y. Ws. These will be the last scheduled games of the season and the winners will settle who plays off for the championship. Following is the present standing of the teams:

	Played.	Lost
Punahou	3	1
High School	3	1
Y. W. C. A.	3	1
Kama	4	2
Normals	3	2

STATUE SUGGESTED.

A meeting of the McKinley Memorial Committee was held yesterday afternoon, at which the proposition suggested by Governor Carter, namely, that the Bishop estate be induced to take back the properties near the baseball grounds for the money originally paid, and the money be used for a statue of McKinley, was discussed. It was found that the Bishop estate did not favor the Governor's suggestion that the statue be placed in Aala park, as this plan was thought too small.

DIED.

WOOD—At the residence of Thomas Cummins, Pawa, John Adams Pine-Haka Wood (John Lillili), aged 43 years. Funeral Friday.

Danderine

GREW THIS HAIR

AND WE CAN PROVE IT.

Results from its use are QUICK and PERMANENT.

LITTLE FRANCES MARIE KNOWLTON

whose photograph appears herewith has a most beautiful head of golden hair, thicker than the crown of glory of most mature women. Frances is only four years old, and her hair hangs within 12 inches of the floor. The extraordinary hair strengthening qualities of Danderine has grown for this little girl the most admirable head of hair ever possessed by a child of her age in the world. The other two ladies whose photographs are shown here are certainly delighted with the results they are getting. Neither of them having hair that would reach to their waists before beginning the use of Danderine.

IT IS POSITIVE AND PERMANENT IN ITS RESULTS.

When applied to the scalp on either old or young, it makes the hair sprout and grow thick, long and beautiful, and there is no waiting around for weeks and months to see results, either. Any druggist will refund the price if it does not accomplish every result we claim. **NOW** at all druggists in three sizes, 25 cents, 50 cents and \$1.00 per bottle.

FREE To show how quickly Danderine acts we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and 10 cents in silver or stamps to pay postage.

FOR SALE AND GUARANTEED BY HOLLISTER DRUG COMPANY. SOLE AGENTS.

GRAND DUKE RESPONSIBLE.

St. Petersburg, Jan. 28, 5:50 p. m.—The real origin of the charges contained in the London telegram posted at Moscow by Assistant Police Chief Roudneff, to the effect that Great Britain has been supplying money to tie up the Russian arsenals and dockyards for the purpose of aiding her ally, Japan, is now definitely laid at the door of Grand Duke Sergius. The Grand Duke, according to absolutely reliable information from Moscow, turned over the telegram to a Moscow newspaper, which declined to publish it, whereupon, by the Grand Duke's direction, M. Roudneff placarded it in the streets. Grand Duke Sergius' connection with the matter is believed to be greatly embarrassing Foreign Minister Lamadoff, who is anxious to avoid a diplomatic incident. Sir Charles Hardinge, the British Ambassador, followed up his personal request yesterday, when the same charge, in another form, appeared in official papers here. Count Lamadoff has not yet replied to this letter, although at the Foreign Office it is alleged that official as well as unofficial papers print telegrams containing news which has not the slightest government sanction.

COFFE IN QUEENSLAND.

The coffee plantations in the north of Queensland have yielded a good crop of berries this year, reports Consul Goding to the State Department. Coffee has not been so extensively cultivated as might have been expected from the possible profits and the open market for the product. As far back as 1861 the coffee tree was introduced into Queensland in the neighborhood of Bowling Green Bay, but not till some years later were efforts made to turn its cultivation into a paying industry. It is estimated that the plantations cover about 400 acres. The Queensland soil and climate in the north are well adapted for growing the berries. On well-kept plantations 1,120 pounds to the acre can easily be raised; as much as 2,340 pounds have been picked from an acre. The cost of picking and hulling is under \$14.60 per acre, and the average price for unroasted berries is about \$19.46 per hundredweight (112 pounds). While coffee as a daily beverage is not as popular in Australia as tea, there is yet a large demand for it. Tons of the product are imported every year. It was stated recently that the Government is about to assist in the development of the coffee industry by establishing a central hulling and drying plant in the north, and that it will receive, clean, and market the berries for the growers.
